

Quickapp™

Digital Candidate Applications

Reach candidates the way they like to be reached!

Digital Candidate Applications for:

Job Applicants

Potential Tenants

Volunteers

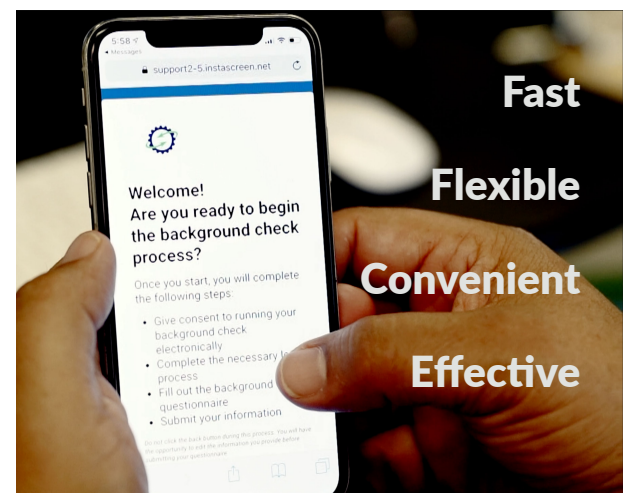

Quickapp™

Quickapp is a powerful digital application that drives rental & hiring efficiency and assists in obtaining consent for background checks. Quickapp offers its users a secure and self-configurable application delivery system that is compatible across any smart device. Candidates receive an electronic invitation through email or text. The candidate inputs their data, ensuring accuracy, and receives a confirmation of completion when they are done. Quickapp is feature-rich with the ability to customize application disclosures, send email/text reminders, and integrate with ATS/PMS systems for an end-to-end application experience.

QuickApp™ - Candidate Applications

Quickapp electronically delivers candidate applications to any smart device and is fully-integrated with Insight Screening Solutions world-class background screening platform. Quickapp is fast, flexible, convenient, saves time & money, and best of all, over 90% of applicants who start a candidate application with Quickapp complete the entire process!

Quickapp™ delivers a
